COMPULSORY ATTENDANCE LAW UPHELD.

RURAL SCHOOLS WILL BEGIN MONDAY, JULY 11TH, 1921.

The Kentucky Court of Appeals, the highest court in the State, has recently declared the new school attendance law to be constitutional and valid. This means that the force and power of the compulsory attendance law, heretofore questioned by some, is now squarely established and that it will be enforced without fear or exception. The law provides that all children of normal mind and body, between the ages of 7 and 16 must attend school every day. The only legal excuse is sickness, and this must be attested by a physician and the certificates of the physician filed either with the teacher or the attendance officer. Those who have in the past doubted the validity of this law, should now be convinced that it is such a law as was first reported, and should begin making preparations to comply with its provisions.

TO THE REPUBLICANS OF BATH COUNTY:

You are hereby notified that there will be a convention of the Republican Party held at the Court House in Owingsville, Ky., on Saturday, July 2nd, 1921 for the purpose of selecting and endorsing Republicans for the various county officers to be voted for at the coming August primary election. Let every Republican in the county attend said convention if we may decide what is best for the party and for the people.

On the same date there will be held a meeting of the Republican County Committee for the purpose of selecting suitable persons to be recommended for appointment as election commissioners for the county and for the transaction of any other business which may come before the convention.

Yours truly,

THOMAS SNEDEGAR,

Chairman Bath County Republican Committee.

Attest, H. C. Gudger, Secy.

MEANS BIG CROP

Wheat in Western Canada Has Excellent Start.

Termination, in the Rich Soil of That Country, Is Speedy—Farmers on Road to Wealth.

It was on the 15th of May that the letter received a letter from a friend of Mr. and Mrs. C. E. Dugan, 150 West Chestnut street, who was taken from the Ohio River at the foot of Sixth street. Police and coast guards worked in a vain effort to save the life of the child.

Kentucky News Cullings

An epitome of the most important events transpiring throughout the state

It was on the 15th of May that the life of Lloyd Dugan, 10, was taken by an automobile driven by William Speed, 114 Second street, at Fourth and Liberty streets, and suffered serious injuries. At the City Hospital, where he was taken immediately after the accident, it was said that she had consciousness of the child. Speed was arrested by Traffic Officer Marlow and was placed at police headquarters on a charge of assault and battery.

Covington. When the Covington Board of Education by unanimous vote re-elected Prof. Benjamin Burman as teacher of civics and history in the Covington High School next year, at a salary of \$100 a month, a controversy in educational circles ended. At the last meeting of the board the re-election of Prof. Burman was deferred to permit an investigation of rumors that he had advocated certain doctrines of a radical nature in the discharge of his duties as teacher. President Joseph B. Dunkle, of the Board of Education, announced that the board had made an investigation and found nothing to justify the rumors concerning Prof. Burman.

Frankfort. Licenses for 104,622 motor vehicles, including 31,139 passenger automobiles, 12,549 trucks and 635 motorcycles, have been issued for 1921 by the Automobile Department of the State Tax Commission. It was announced. In addition, 660 dealers and 7,159 chauffeurs have obtained licenses.

Covington. Peyton H. Monroe, 21 years old, 1536 Nancy street, Covington, and Lewis Meyrose, 37 years old, 112 Trevor street, Covington, were arrested by Detectives Higgins and Major Parker on a warrant sworn to by Merlin Banks, 1706 Garrard street, Covington, who charged the men with highway robbery. He said they hit him on the head and robbed him.

Paris. Fire which started in the house occupied by Lewis Johnson, in a suburb of Clayville, destroyed ten cottages before it was finally controlled. It spread so rapidly that very little household effects were saved. About fifty persons were made homeless. Practically no insurance was carried on the houses or household goods. There being no water connections the fire department was unable to render much assistance.

Owensboro—Fred Jennings, a farmer of Pauher, near here, lies in critical condition at the home of his uncle, Charles Jennings, as a result of several wounds which he suffered in an accident. According to the statement of Jennings, the argument which led to the cutting arose between him and Coleman Boller, a son of Jim Boller, three weeks ago, concerning the two sands of homesteads, which took place on the 1st of May, there was a rush to take advantage of the opportunity to secure 100 acres of excellent land free, within a span of distance of a railroad. The low railway rates granted by means of a certificate is issued by Canadian government agents, located at different points in the States, make it possible to make a trip of inspection at small cost.

Oat and barley farming are branches that add considerable to the wealth of the farmer who desires to make money quickly. That these grains can be grown so successfully, and easily, makes it possible to go into other branches of farming industry, that give stability to it, wherever they are carried on. They are dairy and cattle-raising. There is an excellent market for the product, and the ultimate side materially in assisting it, while the native grain, as well as cultivated varieties, bring the cost of production to much lower figure than is possible on lands that are much higher in price, with no better yielding qualities. Then, again, it is simply shown that fodder corn can be grown with great success, and that sunflowers, which it has been fully proven are little better, if any, in food quality, thrive wonderfully. In fact, these two fodders, in addition to which may be added that of alfalfa and sweet clover, in which Western Canada farmers are well up with growers elsewhere, have brought about a period of silo-building which promises to eclipses any effort in this line made anywhere on the continent. In Manitoba alone, one firm is building two hundred this year. In Saskatchewan, many orders have been placed; in one small district in Alberta, where fifty were erected last year, another fifty will be built this summer. That there will be a thousand silos erected in the three provinces this year seems to be a conservative estimate. To the farmer in the States, who knows the advantage of the silos, who is interested in the fodder to be grown to fill them, what does this mean?—Advertisement.

Quits in Order.

W. B. Quits, who has been living in southern Spain for the last year or two, said the other day:

"Life is very abundant and prolific over there, especially insect life. There was a typographical error in one of my stories recently, that this error would have escaped notice in Andalucia, though it excited a lot of disgust here at home."

The error was in the quotation of a hymn, my heroine being made to sing:

"Just as I am without one fear; A hymn worded like that would be quite in order in Spain."

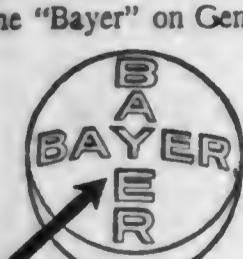

Important to Mothers. Examining carefully every bottle of CASTORIA, that famous old remedy for infants and children, and see that it bears the signature of *Chas. H. Fletcher*. In Use for Over 30 Years. Children Cry for Fletcher's Castoria.

Old Penalties inadequate. Why don't you Crimson girdle men hang an automobile thief the same as you used to do with a horse thief?"

"We discussed it," said Capt. Clegg; "but we came to the conclusion that hangin' is too good for him."

ASPIRIN

Name "Bayer" on Genuine

Beware! Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago, and for Pain. Handy tin boxes of twelve Bayer Tablets of Aspirin cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Monosaccharides of Salicylic acid.

Opulence. Park—Well, I've just had a considerable increase in my income. Land—Wonderful! Must be a great help. It is. It has extended my credit so much that my wife can run into debt twice as much as the credit—Life.

It seems almost impossible to make any home attractive enough to realize the pull of the movies.

A pompous manure is sure to stir up a mischievous desire to flout it.

Louisville—Mrs. John Graham, 56, widow of J. H. Graham, a guard at the Indiana Reformatory, who was killed recently by convicts who beat him to death when they mistreated and made an effort to escape, was struck by an automobile driven by William Speed, 114 Second street, at Fourth and Liberty streets, and suffered serious injuries. At the City Hospital, where she was taken immediately after the accident, it was said that she had consciousness of the child. Speed was arrested by Traffic Officer Marlow and was placed at police headquarters on a charge of assault and battery.

Frankfort. Certifying to the law in the case of the Commonwealth against John Millburn, the Appellate Court decided that an order for a new trial by the Circuit Court is not a trial by the Circuit Court but is a trial by the Appellate Court. Millburn was convicted on the charge of robbing stolen goods knowingly and sentenced to one year in the penitentiary. He was given a new trial. An appeal was taken by the Commonwealth to determine whether or not he should have been given a new trial. The Appellate Court says that as an order for a new trial is not a trial order it can not be affirmed or reversed or remanded.
